

FIX Detective

Manage and Monitor FIX Connectivity

Ideal for both trading and technical operations staff

FIX Detective™ is a next generation FIX monitoring solution with a powerful analysis and searching tool that gives users unprecedented ability to analyse FIX connections.

Use FIX Detective™ to:

Uncover issues before counterparties do

- ▶ Setup rules and alerts to find errors before they hit downstream systems.
- ▶ Follow message flow through multiple connections to determine the source of the issues.

See current state of FIX services in real-time

- ▶ View high business level communication that traders will understand.
- ▶ Dive into the technical details of a FIX connection.

Recognise issues before they become a problem

- ▶ Locate potential errors using advanced message validation.
- ▶ Keep FIX services running smoother and longer so that trade revenue is not interrupted.

Our comprehensive suite of tools manages all aspects of a typical FIX implementation from a single application suite.

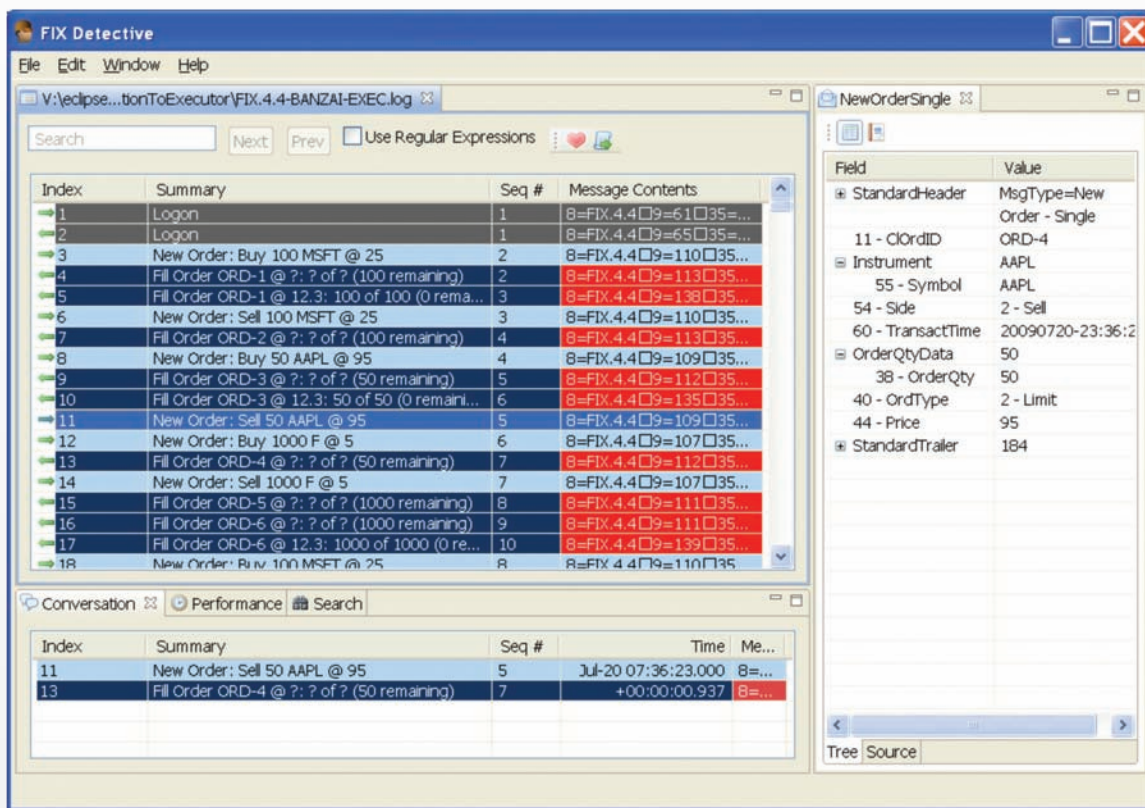

Lasalletech

FIX Detective features

- ▶ FIX Detective™ is a next generation FIX monitoring solution whose powerful analysis and searching tools give users unprecedented ability to analyse their FIX traffic, diagnose problems and resolve them in a timely manner.
- ▶ Unlike other products in the marketplace, FIX Detective™ offers both an operational view of the FIX messages useful to technical staff and a business oriented view useful to traders and other non-technical staff.

- ▶ Real-time log viewing
- ▶ Sophisticated searching capabilities
- ▶ Human-friendly views into the log file
- ▶ Automatically reads FIX engine configuration information
